SECTION 3 Local/Regional Materials

(*LEED – New Construction v2.2 Local/Regional Materials Credits MR 5.1 and MR 5.2)

This product is manufactured in the following SWF facilities: Tijuana, BC, Mexico. Determine the distance in statute miles to your project site from the Springs Window Fashions manufacturing location. You can use the following Website to determine the distance to your job-site (not a SWF Website): <http://www.geobytes.com>

SECTION 4 Innovation and Design Information

(*LEED – New Construction v2.2 Innovation in Design Credit ID 1)

The fabrics offered in our Natural Shades program are natural, many of which are classified as a renewable resource, such as bamboo, rattan reed, grass and jute.

The fabrics used in the woven wood fabrics are stained using a boiling process. Stained materials are then air dried, saving energy.

All LEED rating point references are suggested applications of SWF products to the LEED rating system. LEED applicants should use their own objective determinations of product attributes for LEED certification purposes.
