

Graber® EvenPleat® and FashionPleat® Pleated Shades Green Info Sheet

Green Properties of Graber Pleated Shades

- Pleated Shades block the sun’s heat, reducing solar heat gain in the summer. This insulating effect reduces energy consumption and lowers energy bills.
- By blocking out the sun’s UV rays, Pleated Shades also prevent damage to furniture, flooring and belongings, thereby protecting the durability of your home and reducing prematurely sending damaged products to a landfill.
- Pleated Shades carry a limited lifetime warranty. (Note: FashionPleat has a 3-year warranty.) These shades are designed, engineered and tested to ensure a long life, reducing landfill waste from short-lived products.

Eco-Friendly Raw Materials

- All of the components of this product are 100% recyclable, including the fabric, aluminum headrail and plastic. Plastic components in Pleated Shades contain up to 50% pre-consumer recycled material.
- Corrugated cardboard is used to package all products and is 100% recyclable. The cardboard itself contains 35 to 40% recycled content. The angle board used to reinforce the cardboard is 100% recyclable, and contains 80% post-consumer recycled material and 20% pre-consumer recycled material. Poly tubes, EPS pads, parts tub and bubble wrap used in packaging are also 100% recyclable.
- Custom box cutting machines are used to cut each box to the exact size of the shade. This process eliminates wasted cardboard, packing materials and shipping energy.

Green by Nature is Springs Window Fashion’s commitment to the environment.

Graber is a brand of SPRINGS WINDOW FASHIONS the Best Experience Company
