

Graber® LightWeaves® Roller Shades Green Info Sheet

Green Properties of Graber Roller Shades

•Roller Shades carry a limited lifetime warranty. These blinds are designed, engineered and tested to ensure a long life, reducing landfill waste from short lived products.

Eco-Friendly Raw Materials

•Several of the Roller Shades fabrics are certified with the *Oeko-Tex Standard 100: "Confidence in Textiles"* label. This verifies that the fabrics are free of PVC, Halogen, Lead, Formaldehyde, allergenic dyes, pesticides, phenols, heavy metals, among others.

•All of the components of this product are 100% recyclable, including most of the fabric, aluminum tube and hem bar. Plastic components in Roller Shades contain up to 50% pre-consumer recycled material.

•Corrugated cardboard is used to package all products and is 100% recyclable. The cardboard itself contains 35-40% recycled content. The angle board used to reinforce the cardboard is 100% recyclable and contains 80% post-consumer recycled material and 20% pre-consumer recycled material. Poly tubes, EPS pads, parts tub and bubble wrap used in packaging are also 100% recyclable.

•Custom box cutting machines are used to cut each box to the exact size of the blind. This process eliminates wasted cardboard, packing materials and shipping energy.

Green by Nature is Springs Window Fashion's commitment to the environment.

Graber is a brand of SPRINGS WINDOW FASHIONS the Best Experience Company
